

INFINITY AND BEYOND!

The INFINITY AND BEYOND program was designed to allow you to review other finish options not captured in our standard programs.

Optional finishes such as:

- You are trying to match up to an existing paint, laminate or fabric (not listed in the standards)
- You are looking for additional finish(es) that you did not find in the standards program
- You need to COM or COL fabric or laminate
- You need a custom paint color

NOTE: With this option, you may be able to choose anything and everything to create your own signature look with finishes, but will run the chance of upcharges and lead time extensions.

Also, choosing from just one category or all, may effect costs and lead times.

Laminates - All samples available online

www.wilsonart.com
