

High Performance Flooring Solutions for Corporate Environments

As part of the third largest carpet company in North America, J+J Flooring integrates a portfolio of flooring products that addresses a wide range of application requirements and stocking programs as well as standard and made-to order options.

Throughout our company's tremendous growth in recent years, one thing has never changed: our commitment to putting people and planet first. At the forefront is the investment in the most-efficient manufacturing facilities in the industry, using less energy and producing industry-leading quality levels - which means less waste.

We design our products from the ground up to lead the pack in durability, while also integrating raw materials with recycled content wherever possible. Our manufacturing is geared towards the needs and unique demands of corporate spaces. Designed to coordinate, with accent palettes that focus on both sophisticated, contemporary and traditional corporate color options. Our product offerings include:

- modular carpet
- broadloom carpet
- entry way tiles
- Kinetex (carbon neutral)
- LVT

Quick Ship Program ensures orders up to 1,500 SY ship within 10 days or less. We have a robust selection of inventory that's ready to go!

Online Visualizer Tool: Need it now? Digital Canvas is our award-winning online visualizer that provides instant gratification. Just upload a picture of your space, choose your product, and get a real-time rendering. Visit jjfflooring.com to try out Digital Canvas.
