OFFICE FURNITURE

Where Sustainability Meets Style

Sustainability isn't just part of what we do, it defines us. Our sustainable approach delivers high quality, cost-effective solutions while supporting a greener future.

Why Us?

- 40+ years of experience in remanufacturing and revitalizing pre-owned office furniture
- We offer smart, responsible decommissioning for offices in transition
- Pre-owned office furniture is an investment in both environmental and economic sustainability
- Our products and processes support the 5 tenets of the Common Materials framework
- Our headquarters prioritizes the use of renewable energy, with 2,600 solar panels on its roof
- Earn LEED and other green building certification credits

Our Sustainable Approach

Eco-friendly and non-toxic materials

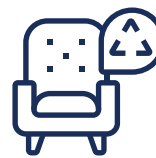

Lower emissions from supply chain to shop floor

Minimize waste via responsible material use

Extend the lifecycle of every item possible

Resell and repurpose to avoid landfill waste

Non-reusable items are responsibly recycled

Circular Hub

- Embrace cradle-to-cradle thinking, giving furniture a second (or third) life
- 17 million pounds of office furniture is thrown away annually - enough to fill 50 empire state buildings
- We've diverted 1,387 tons of furniture from landfills in 2024 through remanufacturing, reconditioning, and recycling
